## ~ Foreword ~

*We are very excited and honoured to present to you the second Global Impact Sale. Australian breeders along with breeders from around the world continue to strive for the best genetics and to continually improve their breeding programs. This auction has been formed to showcase the very best genetics no matter where you are in the world.*

*Without question the 2015 Global Impact Sale was one of the most successful sales of all time, breaking the Australasian record price for a dairy female at \$112,000, the Australian record for an unjoined Jersey heifer at \$22,000 and the highest averaging Holstein sale ever at \$9240! This year we continue to strive for the best genetics this country has to offer although we have also shifted our objectives. No matter what you are trying to breed for we believe the passion lies in developing a cow family you can be proud of. This year our aim is not to break records, it is no matter who you are you can come and purchase an animal you can be proud to own, an animal that will start a foundation for your herd and will be successful. We have searched high and low for cow families we truly believe can achieve this for you.*

*Either daughters or granddaughters from the world's best cows will sell including Frosty EX-97, Hailey EX-97, Jessica EX-96, Camomile EX-95, Electra EX-95, Talent Barbara EX-95, Talent Licorice EX-95, Aubry EX-93, Gold Barbara EX-92, Abrianna EX-92, Bright EX-92 and many more! To add to this incredible line up of Holsteins we have spent countless hours searching for the very best Jerseys we could find. Very rarely do breeders have the opportunity to purchase direct daughters of three EX-95 dams! A direct daughter of the Supreme Champion Cow from IDW will sell (Eve EX-95), a full sister to one of the great Jersey cows in the world, Venus will sell (dam Vera EX-95) and a sister to the world famous sire Premier (dam Pix EX-95) and many more!*

*We would like to thank the consignors who have shown trust and given us this unrivaled collection of animals to sell in this years Global Impact Sale. We would like to thank the entire team that has helped put this world class event together. We promise to work with the buyers to ensure that their purchases can reach their full potential.*

*We would like to open our arms and ask everyone to please come and join us for this fantastic event. It will truly be an extremely enjoyable and unforgettable event that will only be able to be witnessed in person. Let us know if we can accommodate you in any way. We look forward to seeing you in Lardner Park, Victoria on May 10th, 2016!*

*Sincerely,  
Declan Patten & Callum Moscript*

# VIC FEEDS

## Supplier of Quality High Energy Dairy Pellets

Vic Feeds is a new pellet mill situated in Colbinabbin in Victoria's North

The Vic Feeds team set out to build an innovative high tech pellet mill unlike any other in Victoria. The milling machinery was sourced from Europe with the German multicracker along with the German pellet press and combined heat treatment equipment providing a fully gelatinised pellet with a total salmonella kill, for ruminants.

The PLC controlled computer batching ensures exact addition of essential vitamins and minerals.

Vic Feeds primary focus is on improving herd health and we believe that a growth in production will follow on once the cows are healthy, and maintain their immune systems.

### The benefits we have seen from our existing client base include:

- Less incidence of mastitis
- Lower cell counts
- Better in calf rates
- Fewer or no retained membranes
- Less cows in poor health
- Stronger cows in the herd
- Increased milk production and a higher milk solids yield
- Consistency in health and immunity

Vic Feeds has an extensive nutritional advisory team available and provide many on-farm services. Call today and ask us about our scientifically formulated products to suit your requirements.
