Hurtgenlea Dante Marissa

Story behind the No. 1 Net Merit bull

Every chart-topping male or female is backed by a story, a breeder and a series of precise matings. Hurtgenlea Richard Charl rose to fame in March 2017 as an early DG Charley son and the highest indexing - scoring an impressive +2944 GTPI, +1099 net merit, +2235 lbs of milk and +70 lbs of protein. Richard Charl backed by a recently fresh Yoder daughter put the Hurgenlea Dante Marissa family back in the spotlight and created quite a bit of excitement for the Hurtgen family of Elkhorn, Wis.

The development of the Charley son

This cow family came to bloom early on and was prolific in being able to pass on high production, tremendous health traits and quality udders. In the beginning, it wasn't their goal to make high sons but when they had the opportunity to try they succeeded.

But before we get into more details about Richard Charl, let's take it back to where it all began. In 1984, Leo and Karen Hurtgen gave each of their children a calf for their very first 4-H project. JDF-WI Very Mary a heifer they had purchased as a baby calf for $625 was given to their daughter. The Hurtgens could never have imagined that this baby calf would blossom into an incredible transmitting maternal line with significant breed impact. Mary herself was a success from the start, rising to the top of her classes in the show ring as a heifer and then developing into an Excellent-91 GMD DOM cow with a lifetime production of 259,850 lbs of milk. She also produced impressive offspring, one being her second daughter sired by Lutz-Meadow E Mandel. Hurtgenlea Mandel Mara went Excellent as a three-year-old and quickly became a herd favorite for the Hurtgen family.

At the time, Leo's son, Adam Hurtgen, had seen several beautiful Durham daughters and after some discussion they decided to flush Mara to Durham's full brother, Regancrest Elton Dante. Three females resulted from the flush but Hurtgenlea Dante Marissa scored Excellent-93 GMD DOM stood out from the very beginning. After starting a more consistent flush program, the Hurtgen family found out quickly how prolific the Marissa cow family really was.

It wasn't until the Oman mating on Dante Marissa that they started to see interest from A.I. studs. Hurtgenlea O Meara received the most early A.I. interest, testing negative for CV and the fourth dam behind popular mating sire, S-S-I Partyrock Profit.

Meara's full sister, Hurtgenlea O Malley, tested CV positive leading to the decision to use Brigeen Russell as a mating sire. Russell was a higher type bull at the time and a little different mating sire. From the Russell came Hurtgenlea Supersire Malibu VG-85. Adam picks up the story, "It seemed like common sense to then mate her [Malibu] to Woodcrest Mogul Yoder. We saw extraordinary potential and Yoder became an intriguing sire with Mogul in the pedigree, in a general understanding that Mogul and Supersire would mate well together."

Hurtgenlea Yoder Modesto is recently fresh and working hard with a beautiful udder. At +2740 GTPI, Modesto is one of the highest indexing Yoder daughters and who the Hurtgens are currently putting a lot of their time and money into. Leo shares, "If Modesto has a collection under double-digits, it was a bad day."

Hurtgenlea Yoder Modesto
dam of Richard Charl
photo ©Farmgirl Photography

She's been flushed to Hy-Jo-De Troy Glaus, Endco Superhero, Jaltaoak, DG Charley and more. Modesto has a Glaus son scoring +2739 GTPI and headed to Accelerated Genetics and an Altaflywheel son going to Genex that scores+2704 GTPI.

But it was the mating to DG Charley that hit the homerun. Charley was used in the early stages of the pre-release period and the first flush resulted in just one male. But sometimes it only takes one, Hurtgenlea Richard Charl came back at a chart-topping +2960 GTPI and +1113 Net Merit in March 2017. Following the April run, Richard Charl is still No. 1 Net Merit bull in the breed and the No. 4 GTPI.

Adam Hurtgen, Hurtgenlea

"We now know what Modesto is capable of after the high DG Charley son and the unknown potential for the future gets us really excited."

They're currently waiting on genomic results from several matings including seven more pregnancies from Charley coming this July.

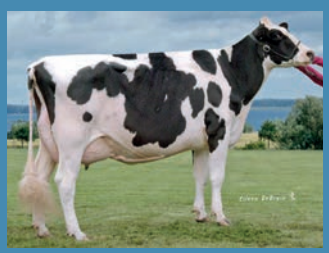

Karen, Adam and Leo Hurtgen with Hurtgenlea Yoder Modesto

"This cow family has given us the chance to do something more creative on the genetics side and we hope to improve each generation."

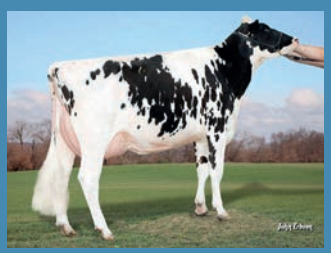

With approximately sixty percent of the herd consisting of animals backed by Hurtgenlea Dante Marissa, it's evident the impact this family has had for the Hurtgen family.

The Hurtgens are extremely excited for the future of Richard Charl and the opportunity and recognition this bull has brought to their farm and family. "Breeding a bull like Richard Charl has been a dream coming true," shares Adam Hurtgen.

Liebe Wagyufreunde und -züchter,

die gute Stimmung auf der Veranstaltung im letzten Jahr und das große Interesse an der Rasse WAGYU haben uns ermuntert, eine 3. European Wagyu Gala zu feiern. Eingebettet in ein schönes Rahmenprogramm kann man nicht nur Wagyu Tiere ansehen und anfassen, sondern u.a. auch das köstliche Fleisch verkosten.

Das Highlight ist jedoch die Elite-Auktion, in der Züchter Topgenetik erwerben können! Ein guter Teil der Tiere ist aus USA importiert, und stammt aus den besten Familien der Wagyu-Zucht.

Wir freuen uns auf dieses großartige Event, und wir freuen uns auf Sie!

Dear Wagyu friends and breeders,

last year's great atmosphere and the positive interest in the Wagyu breed animated us to celebrate a 3rd European Wagyu Gala. Within a nice program around the breed you can see and touch animals and you can taste the excellent meat.

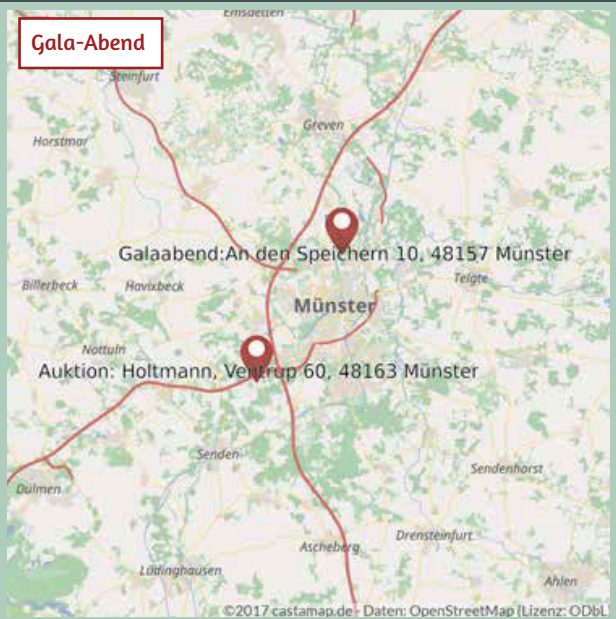

Highlight of the day will be the Elite Sale. Breeders will have the opportunity to purchase top animals from the best families of the Wagyu breed, a number of them being imported from USA.

We look forward to this special event and we will be happy to welcome you!

SHOW Spots

A. DUCKETT ROSS PAMELA | EX-96-USA

Breeder: Michael and Julie Duckett (USA)
Owner: Michael and Julie Duckett (USA)

- Reserve Grand Champion, Midwest Spring National 2017
- All-American 150,000 lb Cow 2016
- 6th Aged Cow, International Holstein Show 2015
- Nominated All-American Five-Year-Old 2014
- 9th Four-Year-Old, International Holstein Show 2013

Story: Pamela is the EX-96 Durham Ross daughter backed by an EX-92 Cousteau followed by a VG-88 Leader and then the tremendous brood cow, Windy-Knoll-View Ultimate Pala. She hit the show circuit in 2013 and has had success every year since earning two All-American nominations and building a very impressive resume. And she's not done yet, at eight-years-old, Pamela is on her way to another nomination.

Owner Comments: Mike Duckett, "Pamela has been one of our favorite cows for a while now. She's one who's been a little more dominant in the show ring and continues to get better every year. She will probably go to Expo again this year. Pamela is pretty special to us -- we bred her, she won at Expo, and is absolutely a doll to work with, no trouble. She has never been sick, had six natural calves and was bred after the first service on each. She's such an easy keeper, we've never had to baby her. Every barn needs a Pamela."

B. DU LOUVION HARLINDA | VG-89-FR 3YR.

Breeder: Elevate Leroy (FR)
Owner: Earl Lepoint, F. Verhille, Leroy & Fils (FR)

- Grand Champion Saint-Etienne 2017
- Grand Champion France National Show SIA 2017
- 2nd place Swiss Expo 2016
- Grand Champion Ath by Night Show, Belgium 2015

Story: One of the most successful show cows in Europe participated in 2017: Du Louvion Harlinda! She won the Grand Championship at the French National Show (SIA) in Paris and she did the same at the show in Saint Etienne. Her great looks are coming from a well known type source. Her sire Gold Chip is more and more establishing his name as sire of big time show winners and her maternal line shows 4 Excellent generations in her pedigree, she has great sires in her pedigree like Gold Chip, Boss Iron & Blackstar. The Blackstar in the pedigree is her 5th dam and called Frisky HGF EX-91, a direct daughter of the one and only Snow-N Denises Dellia EX-95-USA, the foundation cow behind great sires like Durham, Dundee, Damion, Iota and multiple others!

C. LOVHILL BRAXTON FUNKY | EX-93-USA

Breeder: Garry and Dianne Lovich, Lovholm Holsteins (CAN)
Owner: Joseph, Zach, Jerome and Darian Stransky (USA)

- Grand Champion, Midwest Spring National 2017
- 1st Five-Year-Old, Midwest Spring National 2017
- Honorable Mention All-West 2016
- 1st Junior Three-Year-Old, AB Dairy Congress 2015

Story: Sired by Braxton, Lovhill Braxton Funky is backed by a deep Canadian pedigree going back to Lecal T Gent Faye EX-95-2E-USA. Born in Alberta, Canada, Funky was purchased by T&L Cattle Ltd in 2015 before moving to the states a year later and finding a new home at Stranshome, Minnesota. Funky's show record is short and sweet but if judges keep falling for her like judge Ryan did at the 2017 Midwest Spring National, it will only keep getting sweeter.

Owner Comments: Reid Stransky, "Funky has been a great addition to our show string with her balanced frame, open rib and beautiful udder. I first saw Funky while in Alberta helping T&L Cattle in 2015. We decided to partner with Tom DeGroot, T&L Cattle Ltd, and move her to the states. We have sinced taken full ownership. Fresh since March, she is an exciting cow to own and work with having a full Canadian pedigree and youthful mammary system."

D. VEENHUIZER GOLD ONE | EXCELLENT-91-NL

Breeder / Owner: Veenhuizer Holsteins (NL)

- Grand Champion Wintershow Pesse 2017
- Int. Champion & Res. Grand Champion National HHH Show 2015
- Intermediate Champion Wintershow Pesse 2016
- Intermediate Champion Summer Show Beilen 2015

Story: Definately a cow who is getting better by age: Veenhuizer Gold One EX-91-NL. Stepping in the footsteps of her successful dam: Veenhuizer Damion Winnie EX-92-NL who was Grand at the National HHH- & International show in Libramont in her long show carreer. Gold One was already Res. Grand Champion at the HHH-show in 2016 and her latest show she participated she won the Grand Championship! She comes from a very strong transmitting family, going back on To-Mar Wayne Hay, the dam of the legendary Blackstar!

Owner Comments: Jannes Uineken "At the show in Pesse where she won Grand Champion she looked at her best ever, the Swiss judge Patrick Rüttiman commented her as a cow with extremely good balance and bone quality and with a wide, well attached udder. Gold One is a perfect cow in the herd to work with and has a great will to produce milk. We have done IVF with her which we will continue after the National Show (NRM)"

E. OCD BRADNICK CANDY | EX-92-USA

Breeder: Oakfield Corners Dairy (USA)
Owner: Oakfield Corners Dairy (USA)

- Reserve Grand Champion, New York Spring International 2017
- Nominated All-American Senior Two-Year-Old 2015
- Reserve Intermediate Champion, Northeast Fall National 2015
- 8th Winter Yearling, International Holstein Show 2014
- 4th Winter Calf, International Holstein Show 2013

Story: Ever since she was a calf, OCD Bradnick Candy has made her presence known in the show ring. She was bred for show success and calved in with a beautiful udder scoring the maximum VG-89 as a two-year-old. Sired by Bradnick, Candy stems from a tremendous maternal line backed by the Windy-Knoll-View Chanel family. She has changed ownership several times over her career and now is back home at Oakfield Corners. With her massive frame and beautiful udder, Candy has all the parts to continue her show ring success and make her presence known this fall.

Owner Comments: Alicia Lamb, "We are happy to have Candy back at Oakfield Corners and we look forward to working with her in our flush program. She is from a strong maternal line with a history of success in the show ring. Candy has a tremendous frame and udder and we are excited for her continued success in the 2017 show season."

F. POSAL LHEROS OLIMPIA | EX-94-IT

Breeder / Owner: Posal Holsteins (IT)

- Res. Grand- / Res. Sr. / Res. Best Udder Champion Bastia Umbra 2017
- HM Grand- / Res. Sr. / Res. Best Udder Champion Noci 2017
- Grand Champion / Sr. Champion / Best Udder Central-South Italy Show 2017
- Best Senior Udder Noci 2013

Story: Olimpia is already 8 years old and getting in her best shaspe ever. In 2013 she was pre-selected for the European Show in Fribourg as a 4yr. old, in 2015 she won Grand Champion at the Show in Bast and recently as an 8 year old cow she won HM. Grand Champion at the Central South Italy Show 2017! The Olimpia's are a very strong established name in the Posal Holsteins herd with many generations of VG or EXCELLENT cows in a row and with great sires in her pedigree, with daughters of Outside, Ked Juror, Triple Threat and others going back on Huronia Height Clipper Donna which imported from Canada.

Owner Comments: Raffaele Di Ciommo "One of our barn favorites from our incredible Olympia family which is our and one of Italy's very best show cowfamilies. She is pregnant now with her 6th calf. Herudderlooks incvredible for her age and her high production! We are very excited to see how her Atwood-, Goldwyn- & Beemer daughters will develop"

Shines like an emerald

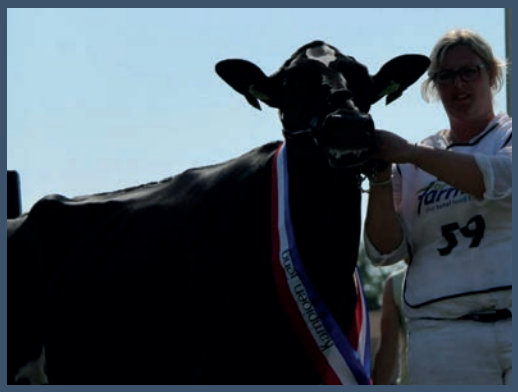

He secretly dreamed of a cow that could win a show, but with Carf Emeraude JK Eder Holsteins & Diamond Genetics are having the complete package. Jan Kolff: 'Emeraude has a great pedigree, she was not a fluke in the showring', explains the entrepreneur, known as a 'genomics man'. 'You have good cows, show cows and brood cows. Emeraude has it all.' A success story that hasn't ended yet.

She is 8 years old and still the eyecatcher in the barn: Carf Emeraude. The EX-91 Goldwyn daughter is still on IVF program. 'Because her embryo's are yet on huge demand and it's a cow we still like produce progeny from ourselves'. As an experienced trader and breeder of high genomics cows and bulls -Jan is the breeder of JK Eder-I Control- he knows that t he market sometimes goes faster then the light. 'But not with showtype. If farmers seek for something special in the showring they often go back to the original brood cow', he explains. 'We have the 4th generation from Emeraude in our barn, among them are high genomic PTAT animals and National Show winners, but also the old lady is still very popular.' So Emeraude still makes embryos, only sexed and combined with high type transmitters like Doorman, Solomon, Unix, Sid and others.

Type from a golden cross

I t was 2011 that Jan saw Emeraude -French for emerald- for the first time. In the show ring at the Space (National Show in France) in Rennes. 'She catched my eye.' Although Jan is a regular guest on many shows, worldwide, Emeraude was something special. 'The judge thought the same, they made her champion.' After the show JK Eder Holsteins & Diamond Genetics required if her owners, Gaec Carfotain wanted to sell their winning cow. 'Come over next week to talk about that', got Jan as an answer. So he went to France again and agreed on the purchase her in combined owndership with Diamond Genetics. 'We were lucky', he admits. '9 out of 10 show winners are not for sale.' But it wasn't only the looks they for. 'With her pedigree Goldwyn x Shottle she has a golden cross, and an up-to-date origin that's commercially interesting.' Next to that, Emeraude's cow family stands out in type: 9 generations were scored 87 or more, half of them EX-90 or higher. 'She is not a one day fly.' While revealing her pedigree also the famous Amarante EX-90 comes along, twice the French cow of the year bred by Gaec Cabon. Amarante is a niece of Toulouse VG-89, the granddam of Emeraude. And Amarante is also the granddam of Capj Irana (s. Numero Uno), first in her category at the European Show in Colmar '16 and winner at the Space 2015. Type and constint incredible brood cows is all in the family.

60 Kg milk, ET & Winning shows!

Emeraude came to The Netherlands and made an impression in the showring. She became champion and top class rankings at multiple regional- and national shows she participated. In the meantime she made lactations over 15,000 kg milk in 305 days. 'And we flushed her twice in every lactation', tells Jan. 'We didn't want to flush her heavily, to make sure she calved at the right time and in the right condition for the shows.' Nevertheless the results were tremendous. 'Emeraude produced 60 kg milk per day and in the meantime she won shows and produced many embryos. Unbelievable', Jan reacts. Her embryo's were (and are) sold all around the world, even to Australia and Canada. While her offspring is being born and her daughters calve in, it's clear that Emeraude has another quality: being a brood cow. Her Doorman daughter JK Eder DG Esmeralda VG-88 (VG-89-MS 2 yr) was reserve champion on the National HHH 2016, was the head cow in the Doorman progeny group and will be present on the All Holland Dairy show in June. Her Numero Uno daughter JK Eder Emeraude 2 scored VG-88 and will probably go excellent this year. Emeraude 2 already has a Doorman daughter and Byway grand daughter. An Atwood and Seavers are about to go fresh. 'With every generation the PTAT scores rise', Jan notices satisfied.

Return Ticket to England

It's a real success story, that Emeraude tried to continue in England at Riverdane where she participated at a few shows in the United Kingdom and afterwards came back again to the Netherlands. 'There is a huge demand for embryo's and offspring from great type cows which proved they breed well. It is a different market than the high genomic market, but still a market which definitely looks like to increase.'
When Emeraude started to get older the normal ET flush results went down and that's why she is switched to IVF program with Diamond Genetics IVF. 'She does really well, produces really good quality embryo's and the pregnancy rates are 60% with fresh embryos and also the frozen embryos are having pregancy rates which are similar to ET embryos.' Most important is Emeraude's extremely good condition and will to milk. 'She produces still 35 kg milk per day, but most of all she shines in our barn with her tremendous dairy frame. I hope and think she will continue giving us lots of joy for many years.'

Our-Favorite Unlimited

Unlimited source of chart-topping type

Nearly every bull stud in the world has high PTA Type sires in their portfolio with new initiatives recently developed to focus on marketing these males. One family is leading the way and producing more high PTA Type bulls than any other on the list. For three generations, a female from the Our-Favorite Unlimited family has topped the PTA Type charts and currently four bulls rank in the Top 10. Today, Our-Favorite Velocity sits in the No. 1 spot on the female list with an impressive +4.53 PTAT, following in the footsteps of her dam, Voracious, and granddam, Unlimited.

Eight generations of Our-Favorite

But before we dig into the high heifers and bulls, let's take a look back at the loaded pedigree stacked with type and good milk cows. Todd Stanek, owner of Our-Favorite Holsteins, Fall Creek, Wis. shares, "We take a lot of pride of the fact that Velocity is the eighth generation to carry our prefix; but it all started with the purchase of five-year-old, EDR V I Angie Melvina EX-93 GMD DOM in 1992. Melvina was named Reserve All-American Senior Three-Year-Old in 1990, and was a tremendously tall and strong cow with the widest and highest rear udder I have ever had in my barn." Stanek purchased Melvina in the Marsh Farm Dispersal Sale, Palmyra, Wis.

"Melvina herself was carrying a good index at the time; however, her sire, Melvin, wasn't really the bull the A.I. studs were looking for," shares Stanek. Nonetheless, Melvina was a very prolific flush cow with many flushes of 20-25 embryos.

In order to gain A.I. interest, Stanek flushed Melvina to a variety of bulls including high index sires at the time like Mascot. From this we will jump forward to Convincer daughter Conceited. "Conceited put our farm on the map and brought visitors, A.I. studs and embryo buyers, she was considered one of the best Convincer daughters in the country." Consequently for Stanek breeding goals worldwide were shifting more towards health and fitness traits. "Conceited's sire stack didn't align with the new breeding direction." Stanek adjusted and started using bulls like Outside and Shottle to improve the health traits of the family in hopes to bring back some A.I. interest.

When the Shottle [Our-Favorite Obvious] turned breeding-age, Stanek's son Cade had just started getting more involved in the matings. "The Shottle was such a nice and fancy heifer that Cade decided to breed her to Atwood," Stanek said. This natural pregnancy resulted in a heifer calf named, Our-Favorite Unlimited. "Cade and I can't agree on why and who decided to test her on genomics as we were more focused on GTPI at the time, but all I can say I am glad we did."

Todd Stanek, Our-Favorite

"Unlimited has taught us that when there is potential to score high, don't hesitate and test them. You will never know which one is the outlier. For us Unlimited was that outlier."

Unlimited type

And just like that a superstar evolved. When genomics came back, Unlimited immediately claimed the top spot on the PTA Type charts. Stanek shares, "Unlimited scored the maximum Excellent-92 and has done what every other cow in her pedigree has done before, namely in their best period they all belonged to the highest production and best type cows in our barn."

Unlimited was flushed as a heifer resulting in Our-Favorite Endless VG-87, sired by Doorman, and is now fresh for the second time. Her full brother, Union, is part of the Showcase Selections program at Select Sires and you will see his daughters at the shows this summer and fall. When Unlimited calved she was put in an extensive flush pro-

gram, yielding interesting daughters sired by Kingboy (Voracious +4.05 PTAT and former No. 1 PTAT heifer in the breed; Expectation +3.63 PTAT), Beemer (Munificent +3.80 PTAT, Undeniable +3.73 PTAT and Inquisitive +3.66 PTAT), Hang-Time (Compelling +3.70 PTAT). These heifers were and are still being worked in an extensive IVF program together with their dam Unlimited.

Working Unlimited and her daughters has resulted in a tremendous line-up of high ranking males and females. Stanek shares, "I am excited to see that the Solomon sons from Unlimited are producing semen now and will be available soon."

Of these Solomon sons, Undenied is in the barns at Select Sires scoring an impressive +4.16 PTAT, a +3.95 PTAT Solomon, VC Mafia, is at Semex and the third son, On Point, +3.88 PTAT, will be available from International Protein Sires.

However, the story is far from over, Our-Favorite Inquisitive (s. Beemer) has Jacoby and Byway sons at +4.14 PTAT and +4.13 PTAT. A full brother to the No. 1 PTAT Heifer, Velocity, came back at +4.07 PTAT and will be heading to Semex.

Stanek is very excited about the Byway sons from the Beemer sisters Munificent and Inquisitive. "They might not be the highest but they have complete indexes, including good scores for rump, PTA milk, calving ease and DPR. A.I.'s are more critical to their type bull selections so we try to breed high type bulls that are more than just a high PTA Type number," shares Stanek.

Our-Favorite Unlimited EX-92 with owner, Todd Stanek

"With the exciting group of pregnancies coming up from the heifers and the next generation that will go into IVF including Velocity +4.53 PTAT, I am looking forward for what the future has in store for this family."

One thing we can be sure, the story of the success of the Unlimited family is still in the early chapters and without question the breeding tradition of great production and type cows will continue.

Col Carmen

A superstar of the European Cosmopolitan's

Talking about a cow with a huge genomic potential: Col Carmen spreads her high GTPI very easily to her offspring. Her sons and daughters end up in the top of the rankings all over the world. And that's no coincidence: she's from a very interesting and European branch of the Larcrest Cosmopolitan family.

It wil take two or three months before the first calves of Col Carmen will be born at Nosbisch Holsteins. Nici is already excited about it. 'We expect Salvatore and Bandares calves.' As Carmen her offspring are one by one genomic giants Nici is looking forward to the future test results. 'Carmen has the complete package and she is from a super cow family. An exceptional brood cow and not even four years of age.'

Since one year Carmen her new home is in Niederweis. Nici bought a part of the cow in the European Classic Sale, together with her breeder Cristoph Lüpschen from Colonia Cows, where Carmen was born. 'We had bought her mother on the Eurogenes Heifer Sale', Christoph tells. He and his wife Birgit milk over 200 cows and their 'second' business is investing in genetics. Larcrest Cosmopolitan VG-87-USA, needs no introduction. She was the former #1 GTP cow in the world and the foundation cow behind great sires like Chevrolet, Charley, Fanatic and multiple others.

Her genetics are requested all over the world. Christoph calls is 'sheer luck' that he could buy her Freddy daughter Drouner AJDH Freddie Cosmo VG-87-DE for € 42,000. 'She is six years and still in our herd and looks like copy of the old Cosmoplitan herself. The younger generation is more interesting, but Cosmo is a pleasure to work with, every day.' Cosmo is a maternal sister to Larcrest Crimson EX-94-USA and producing over 115,000 kg milk at the age of 9 years. Cosmo has the same drive: many sons in AI ánd in the meantime she is one the highest production cows in Europe. In 305 days she produced 12,644 kg milk with 4.9%fat and 3.8% protein: 1089 kg fat and protein in her first lactation.

GTPI +2850

Carmen is the next even more popular generation. Her father Headliner is a full brother to Supersire, which has more production power, but Headliner adds a bit more type. What is even more important is Carmen her breeding power. All her offspring is high on genomics and in rankings, the #2 GTPI calf in Europe with GTPI 2850 is a Jedi x Supershot x Carmen. A dozen sons of Carmen went to AI, like Col Simon (AI Total), Col Crusoe (CRV) and Col Superstar (sold for €32,000 at the Online Bull Sale). Talking about return on investment. Her daughters are on their way to make their own dynasty, in different country's as Christoph has no problems selling Carmen her offspring with GTPI 2600 and higher. 'We want to make money with the cows and yes, then you also sell your better animals.' In the meantime his own herd with 200 cows is increasing in quality. Christoph specially points out the 'polled' line from Carmen. At RUW Zorro (s. Zumba P) is available. With Col Candygold P, Carmen deliverd the #3 GTPI polled heifer in Europe. This daughter of Powerball P is part of the Genesland donor herd that Christoph runs together with Genetics Consolidated (also the mother company of Diamond Genetics, Eurogenes, AI Total & others) and her first feat of arms is a fact: a PP-bull goes to Semex.

Long and powerfull

In the meantime Col Carmen is working at Nosbisch Holsteins on her first lactation. After lots of flushes she's in calf again and will continue to produce embryo's on an IVP program. In 305 days she produced 11,565 kg milk, with 4.3% fat and 3.6% protein. 'She has that typical Cosmopolitan type', Nici descripes. 'Lang, powerful and strong. And with an amazing character.' That's what's breeding is all about: making beautiful cows with impressive high lifetime productions. Real profit makers on every dairy farm. Lüpschen confirms that and notices something extra. 'The character is not really a thing to mention when you talk in business about a cow family, but as a practical farmer it's a quality you have to deal with every day.' The cows from the Cosmopolitan family stand out in a positive way. 'The are easy to work with, friendly and affectionate, while they are dominant in the herd. Exactly the way you want it.'

Bacon-Hill Montross

Choose your favorite MONTROSS daughter

Following the December 2016 proof, daughter-proven newcomer, Bacon-Hill Montross soared to the top of the charts with an unrivaled +2771 GTPI. Never before had a progeny proven sire been so high. Montross is the Mogul son of Unique-Style Bolton Money Montross EX-93 GMD DOM and a matriarch for the Bacon-Hill Holsteins partnership. Money boasts an outcross sire stack, extreme production and crossed with Mogul hit a homerun. Montross has maintained his No. 1 ranking through the April index run with a GTPI of +2744 and a tremendous +3063 lbs of milk, +91 lbs of fat and also No. 1 for protein at +91. He is low on calving ease at 6.8% and is +2.24 for PTA type. His most notable sons are Jedi, Jett, Duke, Bourbon, Montana and Eldorado and his highest indexing daughter scores +2856 GTPI. The Hotspots team congratulates Bacon-Hill Holsteins on breeding a great one and now it is time to take a look at a few of the daughters that have helped him achieve these accolades.
