Dear readers,

We hope you all have enjoyed the summer period. For the team behind Hotspots, it has been an intense summer. All sides of life came along. Arjan and Anne welcomed a beautiful daughter, Milou. Jennifer and Grant became the proud parents of baby Grayson. There was also the other side of life with friend, partner and salesman Berend Meppelink passing unexpected and far too early.

We had team members leaving and new team members joining. Alison starting her own pub and Amanda joined the team at GenoSource. We had Mirjam joining our marketing side, William to the finance department and Jolanda came along as secretary.

There is a new IVF and ET center setup and successfully run by Tom and Gerard.

The Holstein Select business closed and we had to say goodbye to Andreas and Nadine. A new partnership Genesland started with Chirstoph and Birgitte Lüpshen.

Business brought the transfer of DG Charley to ABS Global. And on the other side we are facing everyday low milk prices, which is a challenge for us all.

Nobody knows what is ahead, so therefore try to enjoy each day!

Best regards, The Hotspots Team

Silvermaple Damion Camomile

→ Combining Show Type and PTAT

As we've seen time and time again in our industry, legendary brood cows are not made overnight. It can take years of breeding and marketing a family before their impact is sometimes known. However, that hasn't been the path that Silvermaple Damion Camomile (EX-95 EEEEE) has taken. In a relatively short amount of time, she has established herself as not only a legend in the Holstein breed, but a tremendous brood cow with a stunning future before her. Though she passed in July 2016, her daughters have already proven they are a force to be reckoned with and aren't slowing down any time soon.

Humble beginnings

With the intent of purchasing a 4-H heifer for his daughter Erin, Ben Cuthbert of Silvermaple Holsteins, Ladysmith, BC, attended the Stanhope Wedgwood Sale in November 2006 and purchased three heifers, a Gibson, a Dundee and a Goldwyn. The Goldwyn hailed from Kendu Triumphant Charity (EX-93-CAN 3*), a well-known show cow in Western Canada. While her daughter Stanhope Camila Goldwyn (VG-87-9YR-CAN 1*) was never a stylish heifer or cow, according to Cuthbert, her dam's show record more than made up for her lack of show ring presence. Camila was bred to Damion, a mating that would eventually put Silvermaple in the limelight.

Camomile sparked the interest of Stanhope Wedgwood at the 2010 Western Fall National after winning the Junior Two-Year-Old class and being named Reserve Intermediate Champion. After that day, Silvermaple and Stanhope Wedgwood became partners on Camomile and all ensuing offspring were owned jointly.

That same year, Kathleen O'Keefe, Marketing and Communications Manager, Butlerview Farms also recalls attending the Western Fall

National. "It was a good show with wonderful people, but the cow that stuck in my mind was an awfully good, if a bit green, Junior Two-Year-Old from British Columbia." That same fall, Camomile would make her first 2000-mile trip to Madison and stand fourth in an outstanding class of 39. In November, she would make the even further trip to Toronto, and those extra miles certainly paid off, with her standing atop the Junior Two-Year-Old class. With her impressive fall resume, Camomile was named both All-American and All-Canadian Junior Two-Year-Old.

While Camomile certainly turned heads her first year out, she made an even more impressive return to the ring the following season. With one tap from Judge Gerald Coughlin on the colored shavings in 2011, Camomile soon became a household name. In class, she was praised for her overall power and width of chest, and extreme dairyness, traits that excelled her not only to the ranks of Intermediate Champion, but eventually Reserve Grand Champion of the International Holstein Show. For her breeder, Camomile's win as Best Bred & Owned at Madison was a true honor. "Looking back, it is really hard to top the day we had at Madison," Cuthbert said.

A few weeks later, she would repeat her winning ways north of the border, being selected as Intermediate Champion in Toronto. Her season would be capped off with repeat All-American and All-Canadian titles.

Making the move south

After an incredibly impressive 2011 show season, Camomile made the return to the show ring at the British Columbia Spring Show, winning the four-year-old class and being selected as Grand Champion. That spring, Jeff Butler approached her owners about consigning Camomile to the 2012 International Intrigue. "There was a lot of discussion

among the partners about the decision to sell,” commented Cuthbert. “It was a business decision in the end and a bit bittersweet, but you have to believe that you can do it again.”

Camomile was the second-high seller of the 2012 International Intrigue and sold to Butlerview Farms, Illinois. “She had an impressive show record already and had the makings of a tremendous brood cow,” commented Amber Price, Farm Manager, Butlerview.

Amber Price, Butlerview

“We anticipated she would make high-type offspring that would do well in the show ring, but the fact that she has thrown such elite genomic type numbers exceeded our expectations!”

Once Camomile arrived at Butlerview, she took on her role as brood cow and retired from the show ring, but her excitement for the daily routine was still impressive.

“She had the strongest will of any cow we ever worked with. She was a go-getter and would run you over on the way to the milking stall,” noted Joe Price, Farm Manager, Butlerview.

Brood cow extraordinaire

Camomile entered an intense flush program and soon had heifers on the ground by numerous type and genomic sires. And this is where Camomile’s story turns truly impressive. With nearly 100 registered progeny, and more to come, Camomile’s daughters are following in her legendary footsteps. She has had the unique ability to not only produce show-winning daughters like herself, but chart-topping genomic females as well.

Ethan Heinzmann, Golden Oaks

“Camomile is a trusted matriarch and brings surefire type and loads of production to her offspring with a variety of sire crosses.”

Golden Oaks Farm, along with Nick Raggi, own Camomile’s highest classified daughter, Silvermaple Bolton Cameo (EX-94). She has two records over 36,000 pounds of milk and her two Meridian daughters each scored Very Good-88 as two-year-olds and outworked their peers far and away, according to Heinzmann. They have further invested in Camomile offspring with a milking Uno daughter and Atwood and Doorman heifers they are excited to develop.

Two impressive Doorman daughters are Butlerview Door Camilla (VG-89-2YR) and Butlerview Doorman Class (VG-88-2YR). Camilla was named Junior All-American Winter Heifer Calf in 2014 for Miles Price and followed that up with a Junior Champion title at the Western Spring National Show for then owners Triple Crown, Mitch Hockett and Josh Wright, Idaho. Camilla is now fresh and just scored VG-89 (max) and will show in Madison for new owners John Cunningham, Joe and Amber Price, Graisson Schmidt, Matthew Day, Tyler Dickerhoof, Todd Vanmursbergen, Steven Nelson and Ben Sloan, Illinois.

Butlerview Doorman Class was HM All-American Spring Heifer Calf in 2014 for Mike, Matt and Mark Iager, Maryland. As a heifer, they were able to merchandise embryos from Class to Japan, Australia and Europe, with several Archrival daughters testing extremely high for PTAT. One of those daughters is MD-Maple-Lawn Caroline-ET owned by Gus Rupp, Ohio, the No. 9 (tie) PTAT Heifer under 24 months of age in the U.S. at PTAT+3.96. The Iager brothers sold Class on the Crown Jewel Sale II in 2015 to Whitney and Jordan Ebert, Wisconsin, and she was named Reserve Junior All-American Spring Yearling later that fall. She is fresh for 2016 and recently scored Very Good-88.

Doorman has certainly proved to be one of the best matings on Camomile, with Butlerview Doorman Cassy-ET (VG-87) ranking at No. 22 on the PTAT Cow list at +3.52T. She is owned by Welcome Stock Farm, New York.

Another impressive mating has been to Windhammer, with Silvermaple Windham Camille-ET (EX-92 MAX 94-MS), named the Reserve All-American Senior Two-Year-Old and Intermediate Champion of the International Junior Holstein Show in 2015. She is owned by Christian Cunningham and Miles Price, Illinois, and is fresh for this fall. Wedgwood WH Camomile (VG-89-2YR-CAN) is her full sister and won the 2016 Vancouver Island Show for Westcoast Holsteins, British Columbia.

Ferme Blondin, Quebec, has also been successful with their investments in the Camomile family. “It was after she started to become a brood cow and have daughters genomically tested that really caught our interest,” commented Dann Brady, Sales and Marketing Manager, Ferme Blondin. They are currently working with Butlerview Uno Card (VG-88-2YR-CAN), who is +16 for Conformation in Canada. They also have three Beemer daughters scoring high on the PTAT charts with the beautiful style that Camomile has passed on to so many of her daughters.

Silvermaple is also working with numerous family members of Camomile, with two full sisters and six maternal sisters by Atlas, Sid, Defiant and Ceo. In total, they have 28 family members in the herd with 16 heifers due in the next seven months. They have also purchased a Beemer and Armani directly from Camomile and own an Atwood and Archrival in partnership with other breeders.

“The recent success of her offspring have definitely brought the excitement back to us,” noted Cuthbert, “and we couldn’t be happier for the success the new owners have achieved with the animals we have marketed.”

Final chapter

Fresh in February 2016, Camomile certainly was a draw at the Butlerview Dispersal in March. With so many daughters already making names for themselves, Camomile easily sold herself.

“Our brother Mike had the best idea, which was to bid on Camomile at the Butlerview Dispersal,” noted Dr. Matt Iager. The Iager brothers had already invested in several other Camomile daughters, so the decision was not a hard one for them.

After purchasing Camomile, she entered their flush program and did very well for them, exporting embryos to Canada with interest from

several other countries. With the success that her Doorman daughters have already seen, they concentrated her matings to him. “We also knew the calves that he produces are extremely balanced and the cows have great udders.”

Unfortunately, Camomile passed away in July 2016. “We were extremely disappointed but understand the cattle business and try to find the best in everything,” commented Iager.

Matt Iager, MD-West-View “We found the best in Camomile and were blessed to have had the opportunity to work with her.”

Camomile’s first choice by Doorman was sold on public auction this past summer at the International Intrigue Sale and the Iagers have several female Doorman embryos still available.

While Camomile herself is no longer here, her impact will be felt for years to come. Camomile’s daughters are an impressive group, even at a young age. They’ve inherited her beautiful style, dairy strength and impressive udder in her milking daughters, along with her incredible personality.

“We’re confident that her daughters will also throw high genomic type numbers and it’s only a matter of time before a high type bull emerges from the family,” noted O’Keefe, “which will allow the greater Holstein population access to her genetics.”

“We feel that it’s a great privilege to have worked with Camomile and now the succeeding generations,” commented Price. “It’s truly an honor to have been able to purchase some of her daughters and to work with this cow family that is making such a mark in the industry.”

Direct dtr of HAILEY sells!

NEW STAR AT HOKOVIT GENETICS: CARRYGOLD

The new star at Hokovit Genetics from Switzerland is Hokovit Col Carrygold, one of the highest flush age heifers in the breed with GTPI +2640! She recently produced a bull with >2800 GTPI with the 2596 GTPI bull Afterburner and she is a full brother to the sire of sons Col Simon (GTPI +2651). Carrygold comes from the genomic giant cow Col Carmen VG-86 2yr. going back on Larcrest Cosmopolitan.

www.eurogenes.com/hokovit

EXCELLENT ROZA @ BEEZE HOLSTEINS

Beeze Roza 48 is the newest Excellent cow in the Beeze herd! She is one of the greatest Survivor daughters in Europe and a great brood cow! She is dam to Maikman @ Ki Samen, grand dam to Beeze Bolistos (s. Balisto) who has +242 NVI and her Loptimum grand son will leave to AI soon. Roza 48 is projected > 12.000kgM with 3.6% PROTEIN and goes back to one of the most successful show cows from her generation: IJsselviendt Roza 105 EX-92-NL. www.eurogenes.com/beeze

EMILIO #1 PTAT BULL IN THE BREED!

Wilt Emilio @ Ascol in Spain is the new #1 PTAT bull in the World with PTAT +4.10! Emilio is a Capital Gain son from Yorick daughter Wilt Emy VG-87 2yr. going back on Krull Broker Elegance EX-96-USA! Emilio combines his huge type with positive production (+572 Milk), healthy udders (SCS 2.83) and excels in udder traits (+4.81 RUH / +4.43 RUW)! www.eurogenes.com/wilt

>2500 GTPI & >3.80 PTAT

The newest star at Drakkar Holsteins / Diamond Genetics France is Madona, the only heifer in Europe which combines >2500 GTPI with >3.80 PTAT! She is the #3 GTPI (<9 months) in Europe with PTAT +3.81! She has show style and has a really attractive sire stack: Monterey x Enforcer x Big Time x Bolton. www.eurogenes.com/drakkar

GIESSEN HOLSTEINS WINS GRAND CHAMPION SUMMER SHOW BEILEN

Giessen Holsteins had a very successful Summer Show in Beilen! Charity 59, (Atwood) named Grand Champion! Charity 59 was classified with EX-91 earlier this year and recently participated at the EC in Colmar, France. Her herd mate, Spirit Precilla, now at the age of 11 yrs. won the Sr. Championship and Giessen Cinderella 79 (s. Gold Chip) took home the Res. 2-yr. old Champ. title. Also successful was Scholten Dairies with Nikita (s. Ladd P) who won the 2-yr. Old R&W Championships! www.eurogenes.com/giessen

RITA 670 WINS AGAIN

Willemschoeve Rita 670 has won again the Grand Championship at the Dairyfair Mariënwaerd, this is the 2nd time she won the title Barones of Mariënwaerd and the 3rd time a Rita of Willemschoeve Holsteins won since this prestigious title exists. Also the Res. Sr. Championship went to a Rita, Willemschoeve Rita 579, the Sanchez daughter which was 2yr. Old Champion at the National Show in 2012! www.eurogenes.com/willemschoeve

NEW PICTURE CAPS MAIRY 14

The World's #1 GTPI Jeeves daughter, Caps Mairy 14 has been pictured in her 2nd lactation as a 6 year old cow! She is projected at >14.000 kg milk in 305 days and has multiple super performing offspring at Caps Farm. Like a VG-87 2yr. Willpower and a Supersire dtr which is dam to the #1 GTPI Drama dtr in Europe with +2604 GTPI!

More pictures and info @ www.eurogenes.com/capsfarm

ROCCAFARM DOORMAN ZANDORRA GRAND CHAMPION

Unique performance for Roccafarm Doorman Zandorra at the Südwest Show 2016 where she won the Grand Championship as a 2yr. old! Zandorra is a VG-87 2yr. old Doorman out of a VG-88 Windbrook (which is at Ponderosa Holsteins) going back on Ocean-View Mandel Zandra EX-95-USA!! Zandorra is owned by J. Hennecke & Nosbisch Holsteins and sells with a Golden Dreams dtr in the German Masters Sale 2016! www.eurogenes.com/nosbisch

#1 GTPI ACCURATE AT RIETHIL HOLSTEINS

Riethil Holsteins has bred the #1 GTPI Accurate dtr in Europe! She is GTPI +2565 and is a dtr of the former #1 GTPI cow in Europe: Bouw Super Cathy of the Larcrest Cosmopolitan's.

www.eurogenes.com/riethil

CHAMEA IS FRESH

CNN Mogul Chamea is just fresh, she is producing >40 kg milk / day and transmits incredible! Dam to Crayola @ Semex (+2656 GTPI) & Charas @ AI Total (+2684 GTPI / NM \$ 898) www.eurogenes.com/holbra

MANDERS BREEDS #1 NVI DOORSOPEN!

Manders Femmy 1 came back with a sky high NVI of +373 what makes her the #1 Doorsopen daughter on NVI base! she carries a great pedigree with Sundance, Snowman and Goldwyn in the back. Her 3rd dam is the one and only Bouw Goldwyn Femmy VG-86-NL 2yr, one of the most heavily used brood cow in Holland and is dam to: Snowfever, Snowblast & Snowflake and grand dam to Bouw Rocky, the former #1 RZG Shamrock Son World Wide. www.eurogenes.com/manders

VG-88 2YR. FOR DOORMAN DTR ESMERALDA

JK Eder DG Esmeralda scored VG-88 2yr. with a VG-89 udder! She recently won 2yr. Old Champion at the Dairy Fairy Mariënwaerd. She belongs to the most promising 2yr. olds in Europe and has a stunning pedigree as well, her dam is the multiple show winner Carf Emeraude EX-91 which was the French National Champion at the SPACE for example and goes back on the family of the French cow of the year:

Amaranthe from GAEC Cabon! Esmeralda is currently in IVF program and will have embryos available with the #1 PTAT bull Emilio (PTAT +4.10) www.eurogenes.com/jkeder & www.eurogenes.com/diamondgenetics

CHARLEY HEADS TO ABS GLOBAL

Since the August run of 2016 the semen of the global sensation DG Charley is available through ABS Global! Charley is one of the most popular sire of sons in the World, he is a unique combination of a huge production index (+1976M / 87F / 63P) with great fitness traits: PL 7.6 / SCS 2.65 / DPR +2.5 / SCE 6.8! Charley is the #1 GTPI Supershot son in the World with GTPI +2763 and is a grand daughter of the famous Larcrest Cale VG-89-USA La1.

#1 RZG AFTERBURNER: RZG 165

Oosterbrook Holsteins has bred the #1 RZG Afterburner daughter World Wide: Oosterbrook Burning Star! One of the highest RZG heifers in the breed Balisto free! She is +2516 Milk, RZE 127 and 165 RZG! She has an outcross pedigree, her dam is a Chevrolet grand dtr of Hol-Stiens Colby Jazzstar (Picture)! She sells in the German Masters Sale 2016! www.eurogenes.com/oosterbrook

EXCELLENT CLASSIFICATION DAY @ BARENDONK: 85 AVERAGE!

Barendonk Holsteins, known as one of the best R&W breeders in Europe had an excellent classification day. There were 45 animals in total classified from which 29 R&W heads and 26 B&W's. The R&W's were classified with an average score of 85 points, while the B&W cows scored an average of 84.7 points. Highlights of the day were: Barendonk Wilma 334, Wilma 347, Brasilera 15 & Delta Marlot which all scored the high score of VG-88 in their 1st lactation! The average score at the Barendonk farm is now 85.6 points! Click further for details.

www.eurogenes.com/barendonk

NEW MEMBER: HOLSTEIN SPAIN

Holstein Spain is the newest member at Eurogenes. You can find several top donors for show and high type including: Flora Atwood Adele VG-86-ES 2yr., which is the full sister to ARCHRIVAL! Her McCutchen daughters are in the top of the PTAT ranking list like H. Tobias Mcc Adelana, the #4 PTAT Heifer in Europe!

www.eurogenes.com/holsteinspain

INCREDIBLE MONALISA PICTURED

Schönhof Fever Monalisa from Schönhof Holsteins (Austria) has been pictured. Monalisa was 4th at the European Championship in Colmar and HM Grand Champion at the German Kuhfeuerwerk!

www.eurogenes.com/schoenhof

NEW PICTURE BAMBI

Tynevalley McCutchen Bambi has been pictured! Scored VG 2yr. old in the UK goes back on Bombi EX-94 and has a GTPI +2617 Supershot dtr!

www.eurogenes.com/tynevalley

STRANGER #1 RZG & gNVI CHEVALIER DTR WORLD WIDE

Hul-Stein has bred the #1 RZG & gNVI Chevalier dtr in the World: Hul-Stein Stranger with RZG 165 & gNVI +345! Stranger is from PG De-Su Stylish, the former #2 gNVI heifer in Holland followed by the maternal sister of Galaxy. 4th dam is the great De-Su 7012 EX-92-USA from the De-Su Georgia cow family. www.eurogenes.com/hul-stein

BROWN SWISS BEAUTY

Brown Swiss Champion, Bula BS Laredo Orchis, the Grand Champion of Gotthard Open 2016! More pictures at: www.eurogenes.com/baltschanahof

VG-87 FOR PEPITA

All.Nure Uno Pepita has recently been pictured and scored VG-87 in her 1st lactation in Italy. Pepita was sold for € 101.000 at the Holland Masters Sale 2012 to an international syndicate of buyers. She is the former #1 GTPI heifer in Europe and is still the #2 GTPI Numero Uno in Europe. She has multiple sons in AI like the popular sire Popstar @ Intermizoo (GTPI +2604)

www.eurogenes.com/albero

INTERNATIONAL SUCCESS FOR TWAIN

Great international success for the incredible Beechrow Twains Atwood owned by Hullcrest Holsteins! Recently Twain won the Reserve Junior Championships at the Junior Open Show in Luxembourg! A beautiful picture in the show ring was taken during the Show in Luxembourg! www.eurogenes.com/hullcrest

#1 R&W HEIFER FROM THE AVEA'S

The new #1 GTPI R&W heifer in Europe is R DG Adalyn Red with GTPI +2506, also combined with 161 RZG and 358 gNVI (#1 gNVI R&W) heifer! Adalyn is an Entitle from the Olympian dtr Avira,

followed by the great show- & brood cow BTS-Avea Red VG-87 2yr. out of the KWH Goldwyn Aiko cow family.

www.eurogenes.com/rijnhof
www.eurogenes.com/diamondgenetics

APHRODITE TO ARGH HOLSTEINS

One of the greatest R&W 2yr. olds in Europe moved to the barns of ARGH Holsteins, it's our Hotspots covergirl Luck-E Redburst Aphrodite Red which is in combined ownership with Diamond Genetics and Nosbisch Holsteins.

Aphrodite is a daughter of Redburst which is not available in Europe, was in the Top 5 of her class at the Swiss Expo in Lausanne and won her class at the Schau der Besten against B&W cows! Her dam is none other than Luck-E Advent Atlanta

EX-94-USA, full sister to Asia EX-94-USA, dam of Awesome Red! Aphrodite is in flush program and is available for contracts.

GALYS-VRAY WINS EUROPEAN CHAMPIONSHIP!

One of the most favourite cows, Galys-Vray won the European Championships last weekend in Colmar, France! The Reserve Grand Championships was for the 10-year old Ashlyn-Vray from Ponderosa Holsteins & AI.Be.Ro. Both cows have been bred by the Vray-Holsteins prefix in France. The 12-year old R&W Suard-Red Jordan Irene defended her title with winning the Grand Championships for the 2nd time! Click further for more results and pictures.

Eurogenes member Bons Holsteins won the 1st milking class with Lauthority dtr Bons-Holsteins Koba 219. Ponderosa Let It Snow Angi from Ponderosa Holsteins was 2nd Jr. Holstein Class! Find complete results and more pictures at:

J Mor Man O Man Honey ET, Granddam of Hotline

Are you searching for a bull that gives you efficient and trouble free cows?

WE FOUND HIM: PEAK HOTLINE!

If you're raising an easy to manage and profitable herd, whatever its size, CRV can help. We stand for cows that provide higher yields without increased feeding, cows that also live longer and enjoy healthier lives. With **Better Life Efficiency** and **Better Life Health** you can source and identify the best bulls for a healthier and more efficient herd, based on exclusive traits and years of experience in breeding.

With **Hotline** CRV adds another fine example of our unique breeding goal. Hotline's daughters will be very productive, have excellent and very healthy udders in combination with good Feet and Legs. All relevant traits for breeding that easy to manage and efficient herd.

If you'd like to know more about developing a herd that performs better, please visit our website.

HOLSTEIN PLAZA

ARTHUR PATRUS BELLO, Brazil
Purchased Savage-Leigh Licorice Family Embryos

“We are very satisfied with AMS/Holstein Plaza services! They are very honest and clear with business. Our results were better than expected, and the products (heifers and bulls) from the cow families are so beautiful. Certainly we’re increasing the genetic power of our herd. Above you can see how happy they are here on our farm! Thanks to the staff.”

THE BUYING STOP FOR DAIRYMEN AROUND THE WORLD

FEDERICO STRAMARE, Italy
Purchased Lavender Ruby Redrose Family Embryos

“Thanks to Holstein Plaza I had the possibility to access the best North American genetics at very affordable prices. There is always a wide range to choose from, whether you are looking for show type or high genomic you’ll surely find something that meets your needs. Also the staff is great, ready to help you out with any problems and they take care of everything. All I had to do was pick up the embryos once arrived at destination. Purchasing with Holstein Plaza has been fast and easy, and I will sure continue to look here in the future.”

BEN DYER, Bower Park Farm, United Kingdom
Purchased Butz-Butler Gold Barbara Embryos

“We purchased three IVF Sexed Sid embryos from Butz-Butler Gold Barbara and have two pregnancies so we are very happy. We are also very happy with the speed in which they arrived and the whole process was very good. Now just got to hope for a couple of jet black show heifers.”

HEINZ MEIER, Meiers Holstein, Switzerland
Purchased Larvest Crimson Family Embryos

“I was very happy with my embryo purchases through Holstein Plaza Auctions. I had a fancy Awesome-Red heifer backed by the Goldwyn Africa family that I was able to market and a Denver that scored 1537 ISET making her the No. 7 genomic calf in Switzerland. The Denver is backed by a strong maternal line from the Crimson and also scores GTPI +2613.”

MICHAEL LEAHY, Leahy Farms Inc, United States
Purchased Mc Welcome Colby Taya Family Embryos

“Typically we have a success rate with frozen IVFs that is roughly half of our sexed semen success rate. Our sexed semen success rate for this group of embryos was 80%. We had anticipated a 35-40% success rate. The last group of IVFs we implanted resulted in seven pregnancies out of 12 eggs. Results average out over time. Combine the last two sets and we are right at the 35-40% range. Your site is by far the easiest to use. Has the largest selection. Most importantly the best service.”

FANTASTIC DAY FOR OAKFIELD CORNERS

www.holsteinplaza.com/oakfield

Oakfield Corners had a tremendous day at the Western New York Regional Show recently, exhibiting both Grand Champion and Reserve Grand Champion. The winning aged cow, Bella-Rosa GW Sara EX-94 and sired by Goldwyn was named Grand Champion and Long-Haven Sid Carla placed first in the four-year-old class and went on to be named Reserve Grand Champion. Congratulations!

SHOW Spots

Story: Sired by Goldwyn and backed by the popular GBM Durham BC Annabell cow family, Mor-Yet Goldwyn Faithful caught the attention of several Holstein breeders back in September 2010 when

A. MOR-YET GOLDWYN FAITHFUL | EXCELLENT-94-5YR-USA
Breeder: Randall Lee Moret, Wisconsin (USA)
Owner: Chase & Connor Savage and Cooper Galton, Maryland (USA)

- Grand Champion, New York Spring International Junior Show 2016
- Grand Champion, Maryland Spring Holstein Show 2016
- HM Grand Champion, New York Spring International Junior Show 2015
- 3rd Five-Year-Old, New York Spring International Show 2015
- 3rd Four-Year-Old, Eastern Fall National 2014

she sold through the ring at the Western Wisconsin Genetic Harvest Sale. A final bid of \$7,000 and Todd Galton was the new owner. A young calf with a promising future, Faithful that went on to deliver scoring Very Good-88 EX-MS as a two-year-old, Excellent-91 as a four-year-old and now raised to Excellent-94 as a five-year-old with two huge milk records and an

impressive show resume.

Owner Comments: Todd Galton, "Faithful is just pure cow and does everything a breeder could want. She is producing fancy offspring and has a red granddaughter that will show this fall in the spring calf class. A couple years ago she had 208 pounds of milk for the tester and three days later was named Grand Champion at the Central New York Show. She is just an incredible cow."

Story: One of the greatest senior cows in Europe, maximum score of EX-93 in Italy and she was first Senior Cow at the European Show in Colmar! Bred by Hallow Holsteins from Ireland, her dam Advent

B. HALLOW ATWOOD TWIZZLE | EXCELLENT-93-IT (MAX)
Breeder: Hallow Holsteins (IE)
Owner: Al.Be.Ro Holsteins (IT), P. Conroy (USA) and Gary Jones (IE)

- 1st Senior Cow, European Show Colmar 2016

Twizzle EX-95 won many shows, such as Grand at the Emerald Expo 2016. She comes from a very deep cow family going back on Bardholm Trust Lee EX-93-USA, the foundation of the Luck-E Twizzles! Twizzle is now in the herd of Al.Be.Ro Holsteins in Italy, who own her in combination with Gary Jones (IE) and Pat Conroy (USA).

Owner Comments: Gary Jones: "Twizzle is one of those once-in-a-lifetime cows - as a two-year-old she was square and balanced with a great udder. When she freshened as a second calf three-year-old she continued to develop and now with her third calf she looks better than ever. This is a great trait of the family, they get better with age and I'm excited to see what Twizzle can do at the shows in Italy this fall... right now she looks her best yet!"

Story: Another Goldwyn great, Mt-Ararat Goldwyn Ebrill is backed by the tremendous All-American producing Krull Broker Elegance family. Her dam is an Excellent-92 Advent followed by an Excellent Encore and then Elegance herself. Ebrill has changed

C. MT-ARARAT GOLDWYN EBRILL | VERY GOOD-86-2YR-USA
Breeder: James Buck, Maryland (USA)
Owner: Reid Stransky and T&L Cattle Ltd, Minnesota (USA)

- Reserve Intermediate Champion, Midwest Fall National 2016
- Honorable Mention Grand Champion, Midwest Fall National 2016
- All-Minnesota Senior Two-Year-Old 2015
- 3rd Senior Two-Year-Old, Midwest Fall National 2015
- 1st Winter Yearling, Southern Spring National 2014

ownership several times but has really developed over the past couple of years at Stranshome in Minnesota. Just fresh, Ebrill is ready to parade the colored shavings in Madison following her win at the recent Midwest Fall National Show.

Owner Comments: Reid Stransky, "We are very excited for the future of this young Goldwyn. Ebrill

was purchased by Tom DeGroot, T&L Cattle at expo as a winter yearling, came to the farm following the show and we partnered. She did well as a senior two-year-old and was fresh again late July with her second calf and continues to get better every day. We love her beautiful dairy frame, uphill run and smashing good udder. Ebrill will be part of our string at Madison and is a cow that if she continues to develop could be very special in a year or two."

CHOOSE YOUR FAVORITE European or North American show cow

Send your vote to info@eurogenes.nl before December 1, 2016 or vote online through www.eurogenes.com or www.holsteinplaza.com | **Vote and win a clipping jacket**

Story: Bons-Holsteins is one of the most common names in the Championship result pages of the Dutch shows from the past decade and one of the most up- and coming names in the International

Koba 152 EX-92, the Reserve Intermediate Champion Libramont 2009! Three generations of big international show successes in a row!

D. BONSHOLSTEINS Koba 219 | VERY GOOD-89-NL 2yr.
Breeder: Bons-Holsteins (NL)
Owner: Bons-Holsteins (NL)

- Reserve Junior Champion Swiss Expo Lausanne 2015
- 1st Two-Year-Old, European Show Colmar 2016

show ring! Koba 219 is homebred, VG-89 two-year-old, Reserve Junior Champion Swiss Expo, first two-year-old European Show Colmar and from a champion pedigree. Grand dam Koba 167 is better known as “the big Stormatic”, the Reserve Senior Champion of Libramont 2009, followed by the Integrity daughter

Owner Comments: Nico Bons: “Koba 219 is the kind of cow which reflects our breeding goal, she did it as a heifer at Lausanne, she did it in milk as a two-year-old and we have the best hope for the future! She has a dream udder, which is so strongly attached, she was really young and fresh when she won her class at Colmar, one of the strong transmitting points of this family is the development in frame through the next lactation which makes it that I can’t wait to see how she develops in the upcoming years. Koba 219 is pregnant to Doorman, our target is to show her next year on the National Show, the NRM.”

Story: Bred from an All-American Red & White pedigree, Ivy has all the key pieces to make a great show cow. Sired by Absolute, she has Apple on the top-side and Jan-Com Fond Matt Matilda EX-97 on the bottom side with an All-American nominated

dam and Beluah the Grand Champion of World Dairy Expo 2008 as her granddam. She already has an impressive show resume but it looks like the story of Ivy is far from over.

Owner Comments: Ethan Heinzmann “We bought Ivy from Tim Natzke after she left the ring having won the Fall Calf class at Midwest Spring National in 2014. The following spring she repeated as a class

E. PAMPRD-ACRES AB IVY-RED | VERY GOOD-88-2YR-USA
Breeder: Cassidy Lynn Schirmer, Maryland (USA)
Owner: Golden Oaks Farm, Illinois (USA)

- Grand and Supreme Champion, Illinois State Fair 2016
- 1st Fall Yearling, Midwest Spring National Red & White Show 2015
- Junior Champion, Midwest Spring National Red & White Show 2015
- Nominated All-American Fall Yearling 2015
- 1st Fall Calf, Midwest Spring National Red & White Show 2014

winner taking the Fall Yearling blue ribbon as well as Junior Champion honors. Ivy delighted us when she freshened! We thought everything else could be there if she hung a big time udder. Scored Very Good-88 early in lactation and getting better everyday she reigned Supreme at our Illinois State Fair. To date the only offspring we have from Ivy is a Diamondback bull. As soon as World Dairy Expo is wrapped up we will work hard at making Ivy babies.”

Story: One of the very best young two-year-olds in Europe, she was Top 5 at the Swiss Expo in Lausanne and was first two-year-old at the Schau der Besten in a strong black & white class! Beside her great type she has a tremendous pedigree. Her sire

is Redburst (which is not available in Europe) and has four generations Excellent in her pedigree, her dam is the one and only Luck-E Advent Atlanta *RC EX-94-USA, the full sister to Asia EX-94-USA, the dam of the popular and heavily used sires Awesome Red, Adonis Red and others!

Owner Comments: Rick Schoonhoven “Aphrodite is a true breeders dream and we are proud to have her in the barn. She has a great attitude and is a real

F. LUCK-E REDBURST APHRODITE RED | VERY GOOD-87 88-MS
Breeder: C. Kästner (DE)
Owner: Diamond Genetics, Nosbisch and ARGH Holsteins

- 1st Two-Year-Old, Schau der Besten 2016 (Against B&W’s)
- Top 5 R&W Two-Year-Old, Swiss Expo Lausanne 2016

pleasure to work with. Her type combined with her pedigree makes us looking forward to the future and we can’t wait until we have calves from her in the barn. At the moment she is in flush program, there is plenty of interest in her embryos from all over the world. Beside that we are trying to make some pregnancies as well. Her Armani daughter in Germany looks incredible and was first at the show, that’s a combination we have done again, furthermore we are flushing her to sexed female semen of the best current RC and red bulls!”

THE NEXT GENERATION BARBARA'S
GAMECHANGERS IN THE R&W BREED

*MS DG-TM Delta Bridgett *RC, MS DG-TM Delta Blake & MS DG-TM Brandy Red*

Current members of the BARBARA'S in our breeding program

“Comfort matters ... gets fresh cows off to a great start.”

— Mitch Breunig

SSI Supersire Miri 8679-ET VG-88 EX-MS

MYSTIC VALLEY DAIRY LLC, Home of JENNY-LOU HOLSTEINS, SAUK CITY, WI
 The Breunig Family: Mitch, Jacquie, Allie, Lauren and Brayden
 440 Registered Holsteins, BAA 106.6 (20 EX 153 VG), RHA 33,326M 3.82 1274 F 3.01 1002P, SCC 98-113,000

“Comfort matters. For 5 years, we have used Udder Comfort™ because it gets fresh cows off to a great start with quality udders and quality milk. That’s why we spray every fresh udder 2x/day for 3 to 7 days after calving,” says Mitch Breunig, Mystic Valley Dairy, Sauk City, Wisconsin, home of Jenny-Lou Holsteins, founded by his parents Jeanette and Louis.

From balanced breeding and their focus on longevity came the legacy of Toystory. Today, this 440-cow freestall herd has 62 cows past 150,000M lifetime.

With a BAA in the top 5 for the U.S., This herd makes 100 lbs/cow/day with records to 55,000M, and includes many offspring of genomic headliner Miri.

SSI Supersire Miri 8679-ET (above) is one of the Holstein breed’s most prolific cows with 15 sons over 2600 GTPI, including breed leaders Jedi, Flagship, Jett, Yale, Espresso, Alltime, Remington and Five-Star. She has 6 daughters over 2600 GTPI, including several at Mystic Valley, once home to Miri herself, where she began her first lactation with the benefits of Udder Comfort.

New U.S. Traits for Wellness

By Dr. David Selner

Dairy health or wellness traits have been published in several forms over the last 35 years. The Nordic countries were the first to publish health related breeding values. Their ability to utilize a large database of on farm recorded data allowed them to gather large amounts of information on these lower heritability traits so that they could obtain enough accuracy of evaluation to make these traits usable in a profitability index.

Here in the United States the publishing of calving ease traits started in the 1980's and more recently we have added traits for fertility (DPR), somatic cell score, and longevity (PL). Since these traits are routinely collected in the national dairy herd improvement program, this on farm data can be utilized for genetic evaluations. About two years ago a large conference was held in Arizona to discuss the future direction of dairy evaluations and future traits. All agreed that there is real economic value to health traits and their related costs to create an overall profitable animal.

Background

The Council Dairy Cattle Breeding (CDCB) national genetic evaluation system has not been able to make rapid progress on developing more national health trait evaluations. The huge hurdle that seems to be hard to conquer is that there is no uniform health trait data collection in the national DHIA database. Only on farm records are available and they are often incomplete and also vary widely in the data collected by each herd. Also every dairymen often has a different way to describe the same trait. Is a cow lame, does she have hairy heel warts, does she often need hoof trimming, and many times these observations are all lumped into locomotion problems when they could all be separate traits.

After this large conference and with the on-going emergence of genomic analysis for several traits several dairymen were asking if more could be done to get health trait information soon to increase the accuracy of their culling decisions on replacement heifers. They approached Zoetis to see if there were ways to make greater use of genomic testing.

Accessing data

Since Zoetis has been heavily involved in providing genomic testing for females across the United States they had access to a large genomic database

on females. Zoetis has routinely shared their genomic database of female genotypes with the Council on Dairy Cattle Breeding (CDCB). Thus they have added to the national database that helps all U.S. dairymen. Plus they are the major source of female genomic testing data to the CDCB which is used to correlate with the phenotypic production data being collected by the DHIA centers and the type data collected by the breed associations that allows the calculation of accurate national breeding values.

Zoetis personnel visited with dairymen customers and developed a system for collecting on farm health data that they could use in conjunction with the genomic testing data to come up with more evaluation tools to determine which heifers to cull and which cows to propagate. This analysis of major health traits was developed by Zoetis to help their customers breed more profitable herds of cattle.

The Zoetis database focused on 6 common health traits that are often being recorded on most dairy farms. These include Mastitis, Lameness, Metritis, Retained Placenta, Ketosis and Displaced Abomasum. Enclosed is a chart that describes the incidence, estimated costs of the disease and the impact on culling of the various traits.

Zoetis Data			
Trait	Incidence	Cost/Case	Culling Risk
Mastitis	12-40%	\$155-224	32.7
Lameness	10-48%	\$177-469	16.0
Metritis	2-37%	\$300-358	17.1
Retained Placenta	5-15%	\$206-315	31.7
Displaced Abomasum	3-8%	\$494	26.9
Ketosis	5-14%	\$117-289	32.5

The data collected on numerous farms by Zoetis corresponds very well with other published data collected by universities or in other countries. The scientists at Zoetis combined the on farm data analysis with genomic testing and utilizing the internationally established procedures for developing genetic estimates came up with genetic evaluations for these traits. Once they were able to collect enough data to get reliable estimates for genetic progress Zoetis started publishing the new traits for their customers.

Because of the acceptance of the value of the Zoetis database and the scientific ability of their staff, these values have found eager acceptance by many

Tim Rauen, GenoSource

"Wellness traits are a great tool to use on our large dairy! People ask me what I think of Wellness Traits and its pretty simple - troubled cows cost way to much time and money. So you need to look at it and don't brush it off. I think it's very important when picking your mating sires to eliminate the bulls that are potential high risk Wellness Trait, as the industry has too many bulls that can have a positive influence. We are going to see a lot of traits in the future be measured that are not measured today and it will help the breed greatly. We need to and will reach an era where the calf and cow practically raise themselves and we don't have to raise them - this is all genetically possible."

Greg Andersen, Seagull Bay Dairy

"We are testing all of our females for Wellness Traits. This gives us more information for choosing which heifers and cows will be donors and it also helps us when mating these donors. If available, I also like to see the Wellness Trait information on potential mating sires. I look at total index first -usually NM\$- then will look at the production, fitness and wellness traits when choosing mating sires.

The most important traits are the ones that have the greatest affect on a cow's lifetime profitability. High production is good, but we need have several lactations from a cow in order to reach and maintain profitability on a dairy farm. If Wellness Traits prove to be a good predictor of a cows genetic ability to stay healthy, then these traits will be far more important than many of the conformation traits that we are measuring and weighting in our index formulas currently."

dairymen. Additionally several AI studs are now routinely having their sires evaluated for these traits

Lloyd Holterman, Rosy-Lane Dairy

"Wellness Trait indexes are now an important part of our breeding program. New bulls that are selected need to score at least 1000 on the Dairy Wellness Profit Index. Using DWP\$, which combines health traits with economic indexes, is another tool to breed profitable cows.

Different scale

These Wellness traits are expressed on a different scale than the normal U.S. production and type traits. The average sire is 100. While those above 100 are above average and those below 100 are lower than average. This overcomes the over-emphasized miss-use of breeding values when they appear negative on the traditional scale. (-0.1 is totally bad but +0.1 is good When there is really little difference)

Zoetis Genetic Ranges				
Trait	Ave Rel	Ave Score	Min	Max
Mastitis	51	100	76	115
Lameness	50	100	73	115
Metritis	49	100	75	115
Retained Placenta	50	100	71	116
Displaced Abomasum	49	100	69	111
Ketosis	50	100	72	113

To put it into terms that relate to statistics. Two thirds of all animals will fall between the range of 95 to 105. That is plus or minus one standard deviation or equal to a plus 1 or minus 1 on the traditional

system. Any animal at 115 or 85 would be very extreme as this is 3 standard deviations from average.

The best method to use these values is to combine them into an overall index. There is just getting to be too many numbers to study and often selection mistakes are made by focusing on the individual traits and forgetting the big picture of overall profitability.

New indexes

Zoetis has developed two different indices for dairymen to utilize:

Wellness Trait Index (WT\$) - This index combines the breeding values for the six wellness traits with the associated costs of dealing with health problems.

Dairy Wellness Profit Index (DWP\$) - This index utilizes the Wellness Trait Index along with information for production, calving, fertility and longevity. This is another measure that predicts total profit like currently available indices Net Merit or TPI.

So utilize these profitability indices to select the sires you want to utilize in your herd. I would like to remind everyone that with lower heritability traits it is best to utilize an overall profit index than to individually select on any single trait. Certainly culling from your consideration any sires that are very negative for any of these health traits is wise. However several dairymen try to maximize these low heritable traits by directly selecting on these individual traits at the expense of other more highly heritable profit traits like protein or milk production which is unwise.

The emergence of these Zoetis Wellness traits is just the first step in what I believe will be the creation of several new and valuable genetic estimates on disease and health related costs. As dairies become more technically computer managed and utilizing robotic milking there will be greater amounts of observed data being recorded, the analysis of this data will allow many new opportunities. Be prepared to have many more traits to evaluate in the future.

HOLSTEIN PLAZA

ONLINE HEIFER SALE

Silk, Crimson © Beth Herges, 9882 © Kathy DeBruin

Chart-Topping GTPI Red Heifer

At +2539 GTPI, this Captain-Red heifer is one of the highest GTPI red females in the breed and possibly the highest non-variant and haplotype-free. She is a granddaughter of Epic Sassy and the Planet Silks.

Balanced, different sire stack x Crimson

From the Crimsons, this April 2016 Jedi daughter sells with a balanced proof +2671 GTPI, nearly +1500 milk, +57 fat, +2.70 type and positive DPR. Her dam is a young VG Liquid Gold x VG Planet x CRIMSON.

GTPI+2735 Modesty x Rudy Missys

A maternal line that continues to produce the high ones, don't miss this +2735 GTPI Modesty daughter selling from Supersire 9882. She is +864NMS, +1253 milk and +2.23 type.

MARK YOUR CALENDARS ... October 4 through 14, 2016

Elite Genomic Heifers, Show Type,
Red, Polled and a few Flush Cows

Watch holsteinplaza.com for more consignment
details, online catalog and a full listing of sale staff.

TRANSPORT: All auction sales and transport will be handled through AMS
Genetics International until your final destination.

For foreign buyers, we can arrange housing possibilities.

BIDDING: Bidding is safe and easy to do. Log on to www.holsteinplaza.com
and register to bid or phone one of the listed contacts.

RUSTY branch of the Lead Maes

Top scores for breeder satisfaction

In one of the first editions of Hotspots, we reported on the extraordinary brood cow Whittier-Farms Lead Mae whose influence seemed to be growing daily. Since then the various lines have continued to develop worldwide. After talking to several dairymen we learned that if breeder's satisfaction could be captured in a trait, the Lead Mae family members would definitely score very well.

Diverse family lines

The list of the tremendous brood cows that this family produced is nearly endless; think about the Durham Mae line at Morningview Farms in Iowa that produced bulls like Kingboy. Green-Corner Bolt Mattie who left several high-ranking offspring in the herd of Steve and Janet Keller, K-Manor Holsteins, Wis. Or the lines that go back to Elly Mae, Elly and Elita producing cows like Wabash-Way Emilyann and Wabash-Way Evett. From the Elitas, many successful lines have been developed at herds such as Velthuis Farms and Stanton Brothers Ltd in Ontario. During the August index run, a S-S-I Montross Jedi daughter from Stantons took the No. 1 spot on the GTPI list, scoring a smashing +2911 GTPI. While a McCutchen daughter is the No. 1 GLPI Cow in Canada; both females trace back to Emilyann. On the mating sire lists, Silverridge V Imax will be popular this fall and goes back to the well-known Snowman sisters at Velthuis.

It would take an entire magazine to capture all the various lines of the family, so the focus of this article will be on the main performing

European line. The line that goes back to an imported Durham embryo sold by Don Mayer, Mayerlane Holsteins, Wis. and Dr. Scott Armbrust.

Background

Don Mayer shares, "We bought Lead Mae in the late 1990s together with our partner Dr. Scott Armbrust. At the time we bought her in the Bruce Smith dispersal, she was a dry cow but already scored Excellent-94 in her second lactation, something that is not possible anymore today."

Mayer heard rumors that the Blackstar dam of Lead Mae was one of the best young daughters of the popular mating sire. Unfortunately, Raymau Bstar Monica was lost shortly after scoring Very Good-89 as a result of an allergic reaction to a vaccination. "The positive rumors, the fantastic sire stack and pedigree with many high scoring cows and the fact that Leadman was hot made it an easy decision to buy Lead Mae," says Mayer.

And he never regretted the decision. After arrival, Lead Mae was flushed for another 18 months. The demand for Lead Mae genetics was tremendous; "We couldn't make them quick enough, many embryos went overseas to Japan and Europe," shares Mayer. The mating sires were always carefully selected by the owners, one being Durham. "At the time Durham was an easy choice, he is backed by a great pedigree and I was impressed by the early daughters I saw during my travels."

European start

One of these embryos as mentioned earlier resulted in Marwil Leadmae 1 (VG-88), who inherited the brood cow qualities from Lead Mae and started to be a very strong force in various European systems.

Daughters from this Durham sired by Goldwyn and Titanic have done tremendous work for Vendairy, Netherlands and Southland Holsteins, Netherlands. At Vendairy the Goldwyn daughter A-L-H Willie (VG-88) produced Vendairy Wonder (s: Shottle) a former high ranking genomic sire that received a really nice proof and remains popular for his owners AI Total and Ascol. Titanic daughter, Marwil Leadmae Tanika, is considered one of the best Titanic daughters in Europe and scored Excellent. Several of her daughters scored Very Good and tested high for genomics. Tanika's most well-known daughter is Marwil Rusty (VG-89) and sired by Shottle. Rusty was owned by Jan van Soelen, JHS Holsteins, Netherlands who shares, "We already had two Goldwyn daughters from the Lead Mae family in our barn, Jantina and Alexia who both did very well for us. From the two, the offspring of Alexia milk probably a little better but the Jantinas certainly made a name for themselves." A Chevrolet granddaughter of JHS LeadMae Jantina (VG-85) was top seller in the Luxembourg Summer Classic Sale 2014 selling to Rhala Holsteins, Excellent and Diamond Genetics where she was flushed and now has progeny by Hurricane, Battlecry and Gambler. Jantina 79 herself is due end of October and looks promising.

Successful Snowman mating

However, the most successful member of the Lead Mae family at JHS Holsteins is Marwil Rusty (VG-89) and still in the herd today. Van Soelen shares, "Rusty is still performing well, scored VG-89 and has almost produced 100,000 kg of milk." Rusty's most successful flush was to Snowman producing several full sisters; of which the highest two in the JHS herd score Very Good-87. A first choice of the Snowman pregnancies sold during the Holland Master Sale in 2012 to Zwambag, Netherlands. Jan Postma, Diamond Genetics visited JHS Holsteins following the Holland Masters Sale in 2012 to make the final selection. Postma shares, "After looking at the three calves that were offered and their genomic figures, we selected the highest calf that scored GTPI+2202 and gRZG+140 at the time. In our eyes she was also the best calf of the three." A full brother to the Snowman sisters, JHS Snowrush, is the former No. 1 on the Dutch GNVI system and a very popular sire in Europe for CRV.

The first choice selection, JHS Rusty 17 (VG-85), became a valuable member of the breeding program at Zwambag and was flushed several times leaving daughters by Galaxy and Supersire. The Supersire daughter accelerated the family's rise to the top of the index lists. Postma shares "All the embryos that were available from the Supersire [Rusty 2] were sold to Germany, UK, France and the

Netherlands and the buyers of these embryos certainly never regretted their purchases." Rusty 2 has a Gambler son at Ascol in Spain that scores GTPI+2507 with a really nice balanced proof including scores over 2 points for udders, feet and legs and PTA Type but more impressive are her performances on the female side.

The highest daughter of Rusty 2 is Col Rustymarry scoring GTPI+2702 and making her the highest GTPI Emerald daughter worldwide and one of the highest flush-age heifers in Europe. She is owned by Genesland, Germany and displays a very balanced proof with over +2000 pounds PTA Milk, +149 pounds combined Fat and Protein and over 2 points on PTA Type. But this is not the only No. 1 ranking female from Rusty 17. DKR Rihanna GTPI+2675 is the No. 1 GTPI AltaSpring daughter in Europe and also ranks in the Top 25 GTPI flush-age heifers. A full sister to Rihanna, DKR Rusty, sold during the Vekis Spring Sale 2016 and is now owned by Vlieg Holsteins, Netherlands and scores GTPI+2554. Other high-ranking daughters include full sisters by Dozer, DKR Ruby Rose GTPI+2630 and ORD DKR Hadley GTPI+2605.

Snowman Rusty 17 and Supersire Rusty 2 are now both in the herd of Twin Genetics, Netherlands where they are working on their career as brood cows. The Snowman is fresh again and working on a really good record and will be re-scored soon.

Proven above, the Lead Mae family continues their rich tradition of delivering exceptional new brood cows to the industry like the Rusty line in Europe. They also continue to 'score very high on breeder satisfaction' according to dairymen across the globe.

Val-Bisson Doorman

Choose your favorite

DOORMAN daughter

His early proofs indicated that Doorman was the real deal, when the calves hit the ground and started turning up at shows his popularity boosted once more. Now Doorman's first daughters are milking and he continues to impress. There is already 1144 daughters classified of which 84 percent scores Good Plus or better! In addition, 205 daughters score Very Good as two-year-olds in the Canadian classification system. This all results in an impressive +18 Conformation in Canada and +3.54 PTA Type. But Doorman also offers a good index including fantastic scores for SCS and high fat and protein percentages. It's no wonder this Bookem son is still a popular mating sire in the Semex program and why we will likely hear about Doorman for years to come. Watch for his daughters parading the colored shavings this fall at World Dairy Expo and the Royal Winter Fair.

A Scientific D Cambria Rae *RC
Owner Scientific Holsteins (USA)

Sourcing Genetics for the World

AMS Genetics can source embryos to fit your individual requirements.
If you want production or shine in the show ring AMS Genetics is your starting point!

EXAMPLES OF DONOR COWS THAT AMS GENETICS IS WORKING WITH

KHW Regiment Apple EX-96 3E
Grand Champion, WDE 2011
Embryos from daughters/granddaughters

Silvermaple Damion Camomile EX-95
Res Grand Ch, World Dairy Expo 2011
Embryos from daughters

Savage-Leigh Leona EX-96 2E
6x All-American nominee
Embryos from daughters/granddaughters

Butz-Butler Gold Barbara EX-95
Intermediate Champ, WDE 2013
Embryos from daughters

AMS Genetics has 30 years experience in the sourcing and exportation of Holstein embryos to the world. Although many things changed over the 30 years, one thing is still constant, our commitment to our clients to provide great service and to locate and obtain the genetics that they need. If you are looking to purchase embryos to introduce new genetics into your A.I. company or your herd, AMS Genetics will be your partner in sourcing the U.S. genetic base and handling the exportation. We can adapt our selection to emphasis your selection criteria, so we focus on the genetics that will do the best job for your goals.

Services:

- Sourcing and locating embryo donors
- Herd visitation selection tours
- Contracting of donors
- Complete coordination of: embryo recovery, health certification and documentation, inland assembly and international shipment insurance
- Housing and management assistance for cattle housed in the United States
- Sire sourcing/selection for A.I. companies worldwide
- Commercial dairymen sire sourcing and selection
